PROFESSIONAL SUMMARY

Full Stack Developer with over 2 years of experience building web applications using React, Next.js, and Node.js. Experienced in developing ERP systems, process automation, and REST API integrations. Proficient with Docker, CI/CD, VPS deployment, and unit testing. Focused on scalability, clean architecture, and user experience (UX).

EDUCATION

State University of Southwest Bahia (UESB)
Bachelor of Science in Computer Science

Vitória da Conquista, Brazil
Expected Graduation: June 2027

PROFESSIONAL EXPERIENCE

Freelance Dec 2024 – Present
Full Stack Developer Remote

- Develop custom ERP systems focused on business management, interactive dashboards, and data integration.
- Eliminated **100%** of duplicate bookings in the "Gerência Pousada" system by implementing real-time concurrency control.
- Created **SEO-optimized** landing pages, generating **5 new patients/month** via organic traffic.
- Developed solutions for inventory control, cash flow management, and cloud storage.
- Maintained and optimized legacy systems, significantly improving performance and user experience.

Grupo Mercadótica Aug 2023 – Dec 2024
Web Development Intern Vitória da Conquista, Brazil

- Automated internal processes, reducing processing time from **4 days to 4 minutes**.
- Implemented real-time chat using WebSockets, reducing response time from **15 to 6 minutes**.
- Developed responsive interfaces using React, Next.js, and TypeScript.
- Built backend services with Node.js and Prisma, ensuring API reliability via Postman testing.
